NO. 49.

GANDERBONE'S DEC. FORECASTS.

December of the drifting snow
And yule-log blazing bright;
December when the cold winds blow
Across the face of white;
When winter's ring is in the ground
And the nights are clear and still,
And the boys go belly buster down
The slick and shiny hill.

December of the Christmas tree
And childhood's brightest dream;
December of the ecstasy
Of hallowed Christmas e'en;
When the last sweet lullaby is sung
And children's whisper cease,
And the wee sweet stockings all are
strung
Along the mantle-piece.

December of the drum and horn
And bundles stily hid;
December of the one great morn
Of mornings for the kid;
When the chimes of sweet and mellow
bells
Are welcoming the dawn,
And the house rocks with merry yells,
Of kids with nighties on.

December was the ninth month
in the old Roman calendar, and
its name is from decem (ten).
When Julius Ceaser became Big
Stick of the empire, the month
contained but twenty-nine days.
He added two more—one more to
make ready for Christmas, and
another to recover from it.
Christmas gifts originated with
the Greeks. Santa Claus was in-
vented by the toy manufacturers
of Neuremburg, Germany, where
the Teddy Bears came from.

The motto of this month will

be, "Shut the door!" Roosevelt
and Bryan will be the leading
presidential candidates, and pro-
hibition will continue the burn-
ing issue. The liquor interests
will build walls around Peoria,
Ill., St. Louis, Louisville and
Milwaukee, and the war balloon
will make daily observations of
the movements of Carrie Nation.

The Anti Saloon League has
consented to let the winter sol-
stice of this year begin at 7 p. m.
on the 22nd; but there must be
no drinking and everybody must
be in by Curfew. The 21st. will
be the shortest day in the year.
This will be on Saturday, and if
you are at church next day and
stay for the sermon you will no-
tice that the 22nd is much longer.

The moon will be full on the
19th, and the sign of the zodiac
for the month will be Capricorn-
us the Goat. This will make
butter go up, and send kids to
Sunday school.

The old mill pond will freeze again,
And every one will skate;
The mollycoddle, modest swain,
Will thither go with Kate
She'll slip in such a way that she
Will see a brilliant star,
And he will deeply blush to see
How long her stockings are.

The money scare will quiet
down—unhappy circumstance—
and money will frequent again
the pockets of our pants. The
new gold coins they're making
now without "In God We Trust,"
will turn up in the hat at church

as prized as any dust. The scrip
we have will be retired, and real
dough will look good, but the old
subscriber will insist on paying
us up with wood.

On the 2nd Speaker Cannon
assembled at Washington where
he re-elected himself and resumed
the enactment of law in the
presence of the Democratic mi-
nority and other onlookers. The
final edition of the President's
message will be read, Wall street
will be given another physic;
and it will be officially declared
that this country cannot exist
half capital and half water.

Mr. Fairbank will take refuge
in the dignity of the Senate from
his cocktail persecutors, and sev-
eral new members will be taken
into that exclusive club of multi-
millionaires. Congress will take
up great public questions like the
need for a new federal building
at Podunk and Coyote Center;
the growing demand for a more
elastic currency, and why no-
body will stay in the army at the
generous inducement of \$13 a
month and found—dead in the
Philippines.

Persons born under the sign of
capricornus the goat are great or-
ators, thinkers and teacher; self
conscious and not meddlesome;
good story tellers, eat too much
have style and pride, talk too
much, are distrustful, and keep
a secret (if males). They are
selfish, and never get the hot end
of it in an exchange of Christ-
mas gifts. They continue to
hang up their stockings when it
is a hardship upon others to fill
them. Girls born in Capricor-
nus are hard to win, generally
preferring a parrot to the stork.

The want-wolf will ride the last
Where poverty prevails;
A few late laggard geese will pass
With winter on their tails.

The sleigh will jingle up the
road the lines around the whip,
and George and Nellie, in the
robes, will love's own honey sip.
The sleigh will hit a 10 foot bank,
and they'll go rolling down, with
Nellie's foot in George's face—
and walk six miles to town.

The new rules for farmers pro-
mulgated by the Farmers' Union
will go into effect on the 1st,
viz: Farmers will provide auto-
mobiles for all help, and will
serve as chauffeurs; they will eat
at the second table, and sleep in
the hayloft; they will rise at 4,
do the chores, and serve break-
fast to the hands in bed at 9; they
will provide a phonograph and
the current magazines; hands
will supervise the farmwork from
11 to 12, and from 2 till 3; the
farm will be placed in a bucket
every Saturday and poured
through a ladder placed horizon-
tally, with the ends on two
chairs; what goes through, the
hands get—and what sticks on
the rungs goes to the farmer.

Santa Claus will make the us-
ual rounds on the night of the
24th. Men will get cigars, neck-
wear and mustache cups. Lad-
ies will get the money—which
they would much rather have.
Children will get the stomach-
ache and its complications.

And then comes January 1st
To plague us with some ancient bill
As only January can
Disturb the happiness of man.

Then Leap Year (dread shall
come again with Nineteen Hun-
dred Eight; when womankind of
growing years and single up-to-
date, will hit the bachelor's
plain trail—the unproposing
wretch—and make that worthy
for awhile exceeding hard to
ketch.

For a Christmas present, noth-
ing nicer than Dominoes; the
great combination game set, domi-
no shape, with card colors: Play
cards, dominoes and new games
"Show-me" and "Big Stick." Pa-
rents fascinated; children delight-

ed. Boys and girls make Xmas
money, as agents. Don't delay.

Cash for Tobacco.

Ready cash for tobacco brought
out a large quantity in the wes-
tern part of the State and wag-
ons are fast hauling it to mar-
ket where large sums of money
are being paid out for the crop,
the prices being as high as thir-
teen cents straight. The French
and Italian governments are
buying it, and have gold depos-
ited in the Paducah banks with
which to pay for it.

Awarded Damages.

G. B. Conlee was last week in
the Powell Circuit Court award-
ed \$1,300 00 damages against
Swann-Day Lumber Company for
alleged injury to corn crops a-
long Red river last Spring occa-
sioned by a jam in logs causing
the tide water to remain over the
crops longer than it would have
otherwise done.

Report Next Week.

Next week we will publish a
full report of all money paid to
the Walters' Ferry Bridge Com-
mittee and the disbursement of
same. Some who subscribed to
this fund have not yet paid and
if you want the amount subscrib-
ed to show up in the paid up list

better hand it in by next week's
issue.

Clay City Still Dry.

The saloons have not yet open-
ed in Clay City, the persons in-
tending to open them so far hav-
ing failed to get county license.
The delay as we understand it is
caused by the failure of the li-
quor people to get their case be-
fore the recent term of Circuit
Court, and the case will now have
to lay over until the March term,
and during which time the tem-
perance people will endeavor to
get a vote on local option and
vote it out again. The vote will
be taken under the county unit
law which includes cities of the
first class. It will be easier to
carry the county dry than the
city, hence the vote by the
county.

The last effort to have saloons
in Richmond, for three years,
was defeated when the County
Judge dismissed the petition for
another local option election in
Madison county. The fight has
been a long and hard one.

Wm. Creed, aged 65 years, a
well-known ex-Union soldier
died at Stanton Sunday.

John Stephens has moved back
to Mt. Sterling, and will buy
poultry from that point.

Does Education Pay?

If a nation expects to be ignorant and free in a state of civilization, it expects what never was and what never will be.

Educate and inform the whole mass of the people.

Thomas Jefferson.

It is now recognized by every state in this Union and by every nation upon the earth, that the free education of the people is industrially profitable to the Commonwealth. The universal verdict of all history is, that man's power and capacity as a wealth producer is multiplied in direct proportion to his education and training.

James B. Frazier.

"It is no longer disputed that the wealth, the power, the greatness and the success of a nation are proportioned upon the degree of education that it possesses. The same rule applies to communities. Sometimes we hear it said that our people are too poor to increase their taxes. The fact is, they are often too poor not to increase them.

Twenty years ago Denmark was one of the poorest kingdoms in Europe. To-day in the per capita wealth of the people it is with one exception, the richest; and the general distribution of wealth it stands first.

These results have been brought about through the improvement of its schools, and its schools have been improved by higher taxes. The Danish peasants have taxed themselves until they have made themselves rich."

It has been too common a political doctrine that the best government is that which levies the smallest taxes. The future will modify that doctrine and teach that liberal taxation, fairly levied and properly applied, is the chief work of civilized people. The savage pays no tax.

Charles D. McIver.

"No community is made poorer in average wealth by levying a local tax on its own property to be expended on its own schools. The teachers will spend most of their salaries in the community, leaving the money still at home. The increased capacity of the children for future use-

fulness would, however, more than pay the increased tax were all of it to be expended outside of the community. And, besides local taxation somehow gives the people of every community which levies such a tax an increased interest in their schools."

"Your children cannot receive the training that is theirs by right in three to five months school. They will not have equal opportunities to succeed when they come into competition with boys and girls who have gone to nine months schools."

A reasonable local tax for the support of public schools is a good thing for a man without property and children, but it is a better thing for the man with property whether he has children to educate or not. This is true, not because taxation for education insures ultimately first-class schools, and it is the history of good schools that they cause a direct increase of from 25 to 50 per cent. in the value of property, and a greater increase in the intelligence of the citizens of a community, while crime and poverty are lessened. This statement can be verified by those who care to investigate for themselves.

The people of all communities are taxed to build jails and court houses, and to prosecute criminals, and yet, there is hardly ever a word of complaint; but when a small tax for education, the greatest crime reducer the world has ever known, is proposed, some people are opposed to it.

Willing to be taxed to punish crime, but not willing to be taxed in a less manner to prevent it. Why is this?

Recipe Mixed Often.

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water.

This mixture, writes one authority in a leading Philadelphia newspaper, has a peculiar tonic effect upon the kidneys; cleansing the clogged up pores of the eliminative tissues, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming Rheumatism, Bladder and Urinary troubles in a short while.

A New York druggist who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October stated that the people who once try it "swear by it," especially those who have Urinary and Kidney trouble and suffer with Rheumatism.

The druggists in this neighborhood say they can supply the ingredients which are easily mixed at home. There is said to be better blood-cleansing agent or system tonic known, and certainly none more harmless or simple to use.

There does not seem to be any immediate danger of the American hen or cow clogging the market. It seems that the appetite of the American people for dairy and poultry goods grows faster

than the output. Just think; the poultry and eggs of this country are worth more every year than our corn, oats and hay crops combined.

Thanksgiving was observed in Clay City by the bank and postoffice being closed and half the boys being out with their guns trying to get a chance at a bird or rabbit.

Congress convened in Washington at noon Monday for the short term before Christmas. Jo Cannon was again elected Speaker of the House and John Sharp Williams, of Miss., the Democratic leader.

At Beattyville last week B. F. French, of Winchester, was acquitted of the charge complicity in the murder of J. B. Mareum. The jury was out less than an hour. The jury came from Madison county.

Oklahoma has two new Senators to adorn the halls of the national capitol. Senator Owen, of this new state is one-eighth Cherokee Indian and Senator Gore is totally blind and has been so since his boyhood.

Miss Adeline Gore, 105 years old, and who was believed to be the oldest woman in Kentucky, died last week at Frankfort where she had always lived. She had never married and could remember the building of the first house in Frankfort.

Elder John I. Wills, a native of this county, but who has been residing in the Bluegrass counties for the past several years, has accepted a call to the Baptist church at Higginsport, Ohio, where he will shortly locate with his family. The report was circulated all over town last week that Swann-Day Lumber Company would close down their big planing mill here last Saturday night and that Broadhead-Garrett Co. would also shut down their saw mill and planing mill. The spoke factory and electric light plant were to shut down too. Our people found out better by waiting. The whistles are still waking us up as early as ever.

Here's Good Advice.

O. S. Woolever, one of the best known merchants of New Yorkville, N. Y., says: "If you are ever troubled with piles, apply Bucklen's Arnica Salve. It cured me of them for good 20 years ago." Cures every sore, wound, burn or abrasion. 25c. at Swann-Day Lumber Co.'s store.

A Pennsylvania woman has kept an apple 15 years. She stuck the whole surface with cloves allowing the heads to rest against the skin. The apple retains perfectly its original shape.

A Dangerous Deadlock.

that sometimes terminates fatally, is the stoppage of liver and bowel functions. To quickly end this condition without disagreeable sensations, Dr. King's New Life Pills should always be your remedy. The Third Assistant Postmaster General's report shows that during the last fiscal year 467,058 registered letters and parcels were transmitted through the mails in the State of Kentucky. This is a decrease of 36,000 as compared with the previous year. The fees amounted to \$34,038.

Our friend S. M. Mapel greeted us on the street Monday by saying, "Burcher, I have done got my \$20 paid on the new bridge back; build another one." Such expressions are indeed pleasant to us and we trust that every subscriber to the fund will feel as Mr. Mapel expressed himself.

The Farmer.

Farmers have had ten years of good crops and good prices. In most of these years they have had both. Deficiency in one corn and cotton crop were more than made good to them by high prices. Last year they took in more money than ever before, and this year they are likely to take in \$1,000,000,000 more than they did last year. They will buy freely many sorts of merchandise and they will have money to invest. Good business is about as certain as it can be for another year, proving over again that when the farmer is prosperous everybody is prosperous.

Badly Mixed Up.

Abraham Brown, of Winteron, N. Y., had a very remarkable experience; he says: "Doctors got badly mixed up over me, one said heart disease; two called it kidney trouble; the fourth, blood poison and the fifth stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters, which are restoring me to perfect health." One bottle did me more good than all the five doctors prescribed." Guaranteed to cure blood poison, weakness, and all stomach, liver and kidney complaints at Swann-Day Lumber Co.'s store. 50c.

Big Dividends.

The Standard Oil Company, notwithstanding the financial flurry, has declared a dividend of \$10 per share on its \$100,000,000 of stock. This is the fourth dividend for this year, making a total of 40 per cent. for the year. During the last 20 years this company has paid to stockholders in dividends the fabulous sum of \$591,157,033 or almost six times its entire capital stock.

A Real Wonderland.

South Dakota, with its rich silver mines, bonanza farms, wide ranges and strange natural formations is a veritable wonderland. At Mound City, in the home of Mrs. E. D. Clapp, a wonderful case of healing has lately occurred. Her son seemed near death with lung and throat trouble. "Exhausting coughing spells occurred every five minutes," writes Mrs. Clapp, "when I began giving Dr. King's New Discovery, the great medicine, that saved his life and completely cured him." Married on the fourth Mr. William McIntosh to Miss Bessie C. Clemons at the bride's home.

The second trial of Harry K. Thaw on the charge of killing Stanford White has been postponed till January.

The minimum price seems to have been reached in the Kentucky oil fields and no further drop is expected. Thus far the low price has had little effect on operations, but the cold season is expected to cause a close down of most of the drills during the next few weeks.

The Presidential election is approaching. "Times have changed. That is all. Mr. Watterson is a Democrat, and has always been a Democrat, never a Republican. Essential differences out of the way, Democrats are getting together. The Courier-Journal is going to support the ticket. And there you have it." Send your order for this combination to us—not to the Courier-Journal. The regular price of the Weekly Courier-Journal alone is \$1 a year.
